PROJECTS | Github.com/rawhialfar

Weather App | *JavaScript, HTML, CSS*

https://weatherapp-pr.netlify.app/
- Developed a basic Weather Checking Application that checks the user for an inputted city.
- Works on both mobile devices and desktop, including windows and mac.
- Implemented Open Weather API for fast data checking.

ePortfolio | *Java*

Private on GitHub, Shared Access.
- Developed a GUI based java code that allows a person to buy and sell stocks/mutual funds.
- Included a menu where users can choose which option they want.
  - Buy, Sell, Update, Gain, Quit
- Built upon previous Java Code and refined it.

COVID-19 Data Table | *Python*
- Built a COVID-19 Table that extracts data from an API prints out a table of live COVID-19 data in Ontario.
- Developed with a team of 3, meeting weekly though agile (scrum) meetings.
- Used Trello to build a project planner and stay up to date on what is done, and what needs to be done.
- Met weekly deadlines.

Portfolio Website | *HTML, CSS*

https://rawhialfar.netlify.app/
- Began designing a Portfolilo Website to showcase myself and my work
- Will continue building on it as I learn more JS and HTML and complete more projects
